[2022.04.21 ARPA COMMITTEE-REQUEST FOR MINUTES \(PDF\).PDF](#)

**Request**

Route 9 Public Sewer / small wastewater treatment plant support  
Economic Growth  
1 time abatement for taxes  
Resolve drainage for Main Street near Mauro's Marnie, and train tracks  
drainage issues in the downtown  
sidewalks, connection from Fayville / Central St.  
Continuing across causeway to corner of White  
Bagely Rd / Boston Rd.  
Redo Senior Center / space needs study? May  
change Sr. Center location  
Trash cans where public sidewalks are installed  
Dog Park  
Senior Center Renovations  
premium pay for public safety employees  
premium pay for public safety employees  
Part time mental health clinician  
Marketing and Outreach materials  
One year contract with interface referral service  
Support affordable housing opportunities  
Upgrade town's website to support more collaborative features  
Upgrade town's WiFi capabilities at specific town facilities  
Implement town-wide event scheduling and registration system  
Implement interactive conference room capabilities  
Fund sidewalk work from repairs to new installations. Prioritize sidewalk  
work (both repairs and new) based on connectivity and use/anticipated  
use. New sidewalk work based on DPW sidewalk report and complete  
streets.  
Premium pay for full and part time FD members

Purchase 600 voting devices/ 'clickers', including software and receivers,  
to enable voters at Town Meetings to vote electronically, in person  
Towards various ADA compliance issues throughout town buildings  
New front room on the Senior Center  
Lunblad Field Renovations  
ADA Upgrades to Facilities  
Feasibility study for Neary  
Greater Boroughs PH escalation

Per Diem Vaccination Staff

Digitalization of septic files

Septic Software

strongly support the requests by Youth and Family Services as well as any request by School district to support mental health initiatives. We also encourage town wide evaluation of our website and the ability to conduct business and make payments online, something that is even more urgent during the pandemic.

National Grid Property in Downtown Southboroug

Inlet/Outlet pipe for potential wastewater system underneath Main Street

Wastewater Infrastructure for Downtown

Improved connectivity through construction of sidewalks and connections to trails

Consideration for a modest, targeted tax relief program for residents funding for signage to mark the Southborough Center Historic District, newly recognized (in December of 2021) by the National Register of Historic Places

plan that considers how to help a wider group of residents; renters who are coping with increasing monthly rent payments, adult children living at home because of the inability to earn a living wage, and seniors who have found it necessary to reside with their adult children due to inflation

Audit support

**Notes**

On 24Feb2022 approved this motion "The ARPA committee recommends dedicating \$500,000 to tax relief with \$400,000 applied to the roads budget and \$100,000 applied to other projects with a target of limiting the tax rate increase to less than 5% for FY 2023." Per revised rate no longer need \$500,000 to get under 5%. Do we want to re-visit this?

Route 9 feasibility a ways off (at least 6 months). John Wood will follow up with EDC to request more info from DPW. These projects are either already funded or too early in feasibility to consider. Remove from consideration.

Plan exists. Meme has reached out to Karen for this and will share specifics. This is already funded through other money. Remove.

This is a long term project that is on master plans radar; part of Lunblad Field proposal

\$20,000 has already been allocated for architectural drawings

and comes off our total

EDC to flesh out cost/administration etc.

Beth Dill from Trusts and Bev from food pantry will reach  
ARPA triggers an audit, BoS will vote on allocating this mon

## Questions

- 1) What is status of state premium pay? (to consultant) There is one program but it is for a very low income group and it is unlikely Southborough town employees would qualify. Ther is nothing else available or in the works from the state. There are 64 total employees in town who qualify (46 within FD and PD and an additional 18 across other groups)
- 2) Is there premium pay going to other groups from the state (teachers, other town employees?)? No

1) Can a single figure be provided? Should we assume there is \$31,200 of need? **Don't know final number because need has shifted due to covid. This should be considered a bridge as determining final headcount needed post covid**

1) Does the town pay for each referral (ie. The town pays \$250 for every use) or is it a flat contract fee and the cost per referral goes down as more people use it? **Flat rate paid based on previous year up to \$25K. Interface has freed up personnel to do more direct work with public and serve new covid needs**

2) Is YFS still looking for the full 20K-25K or just to cover the back 6 months of '23 with the school district covering the first 6 months? **Schools willing to help but has not been allotted yet**

1) Does this address any security concerns?

2) Can we get a little more details on additional functionality

1) More detail on where \$250K comes from how it will be spent?

2) Does this address cybersecurity concerns?

1) Will this save the town any money? Is this necessary or a nice to have?
2) Do departments have any feedback or concerns about being integrated into one system?
3) Is this adding any new functionality or just consolidating functionality that currently exists across multiple platforms? Will calendars all be consolidated and who can update them?
4) Does this connect to the new town website?
1) Select board has indicated we are renting an OWL to try mixed meeting. Price tag appears much lower than 500K. What is driving the high price tag?
2) How long term would this solution be? Would we need to update technology within the next few years?
3) How many people would this serve? Are there slightly less optimal but less expensive solutions?
1) What could be done with additional funds?
2) How hard would it be to connect causeways? Is there discussion between Trails and DPW around connectivity?
1) What is the timeframe for bringing to town meeting for a vote? <b>Will go to town meeting in '22, will lease in '23 if approved then will purchase (lease payment will be applied).</b> <b>Moderator must be in favor of clickers. ~1/3 of request for leasing (~6K)</b>

1) Is there a mandate/timeline that we must make these updates? **No deadline. No warrant article currently for ADA.** This is done.

1) Can we get a diagram? **Waiting for project manager to send**

2) How do we address parking? **At Neary and tennis courts. Can't have events before 4PM**

3) How does this potentially interact with the future Neary project? **Not impacted by school build except potential increase of use**

4) What is school property and what is not? Does this limit any use?

**ADA compliance part of this project**

5) Will the field also be fixed as part of this work?

1) Is there a mandate/timeline that we must make these updates? **No response but assume same as facilities**

1) Why would the FY24 funding not go to town meeting for approval? **Advisory has voted against 2nd year director position funding.**

1) Is this necessary? What are the advantages?

2) Does the software exist? If not what is the plan to develop? Is this being looked at in conjunction with IT?

- 1) Can the town purchase property without Town Meeting Approval (Select Board)? **Will likely need to go through town meeting.**
- 2) Can National Grid pitch a number? **Town has been in contact but no details available**
- 3) Would Select Board like to create a tangible for this **Lisa will get back**

out. Potentially can do stiped to equalize property tax  
money in March

- 1) There have already been studies looking this.  
What additional information would this provide? **No clear additional information on what would be learned.**

1) Is SHOPC looking to administrate these funds or just for the administration to happen by someone. Does SHOPC have a recommendation for who should administrate? **Would want someone else to administer. SHOPC doesn't have a recommendation but support Board of Trust Fund**

2) Can this serve other needs beyond property tax assistance. **Yes**

1) Is this already covered with a separate grant? **Have**

1) Will there be any use restrictions (bikes?) **No bikes (MWRA doesn't allow bikes)**

2) How functional is the path as is? What is the additional functionality we gain? **Gate move for parking and ADA certified trail (one of only in Southborough), will add bridge and boardwalk to avoid rt 30. Chances for grant but very unlikely**  
1) What is the chance that the feasibility study will yield a doable project. **Feasibility combined to one proposal**

**May need to add shed which would increase number**

## **Follow Up Qs**

## **Follow Up 2**

Need full time vs. part time

Andrea- email consultant and Mark purp

64 employees are eligible for

Joe

Of 4 projects website is most straightforward, WiFi has a number of gaps for employees (second most tangible project). Event scheduling and interactive conference rooms in 'concept phase' but not ready to go.

Tony

Is there a figure for how much sidewalk/\$\$ (and does cost change per location). Any projects with \$\$ attached \$175/sq yd (\$25/sqft)- \$308K/mile. How do we guarantee money gets used for sidewalks? Can DPW provide a plan for the money? How much money is needed to start a sidewalk project? What confidence should we have that if we allocate this money it will go to new sidewalks in the next year?

Andrea Hamilton  
Chair

Southborough Town Code § 9-25 requires that minutes of each public meeting and the documents used at the meeting be submitted to the Town Clerk within 45 days of the meeting and that the Town Clerk notify the board or committee chair when that reporting requirement is not met.

I'm writing to advise you that as of today, the Town Clerk's Office has not received the minutes and documents used at the **4/21/22** meeting of the **ARPA Committee**.

The Attorney General has determined that a document is considered to be "**used at a meeting**" when the document is:

- Physically present, and
- Identified by name, and
- Its contents are discussed at the meeting.

As a reminder, please submit the documents as individual files and ensure the name of **each separate file** matches how it is identified in the **Documents Used at This Meeting** section of the minutes.

**Please reply to this email with your response which will be posted on the town website until the minutes and documents are received.**

Please advise if you are unable to provide minutes for one of the following reasons:

1. The meeting was cancelled.
2. No meeting was held due to the lack of a quorum.

The meeting involved executive session(s) and the minutes for the executive session portion(s) cannot be released at this time. Note that minutes for the open session portion of a meeting must be released. Also, the board or committee must review any withheld executive session minutes regularly to ensure there is still a valid reason to withhold minutes from the public. We suggest you consult with Town Counsel on any matters concerning the release of executive session minutes.

Thank you,

Kate Battles
