- Continuing Business:
 1. Course improvement planning
 - 1.1. Irrigation Project – The next step for this project is to submit a Notice of Intent to the Conservation Commission. Melissa Danza of the Conservation Commission provided details of the exact documentation needed. This documentation needs to be stamped by a professional engineer (PE). Tony to speak with Bill Harrison and Mark Purple regarding a PE.
 - 1.2. First hole cart path paving - Heavy rain washed current gravel downhill and into the fairway. Path would be approximately 320' x 6'. Proposal has been sent to the Conservation Commission. Cost is estimated to be \$25,000. Selectboard needs to approve.
 - 1.3. Tee refurbishment on holes #3, #5 and #8. Hole #5 will include the addition of a new tee box. Golf Course architect will need to be consulted for this project. Cost estimate for this project if all tee boxes are done at once is \$85,000.
 2. Minimizing wayward golf balls
 - 2.1. Proposed barrier from between the 3rd green and the 4th tee box. Rosemary noted that there are 3 proposals from 3 different vendors. Two are similarly priced, one is nearly double. These proposals will be reviewed by the committee and New England Golf.
