

*** IMPORTANT INFORMATION REGARDING CONSERVATION PERMITTING***

1. The Southborough Conservation Commission has contracted with Lucas Environmental, LLC to provide technical consulting services. The applicant may request the Commission contract with another qualified consultant of the Commission's choosing for a specific project. The consulting review is for the benefit of the Commission members, and is not designed to help the applicant "redesign his/her project".
2. All information, documentation and revisions are to be received prior to the close of any public hearing. Deadline for receipt of these materials are (at a minimum) 10 business days prior to the scheduled continued public hearing date. Public hearings will **not** be closed "pending receipt of a revised plan or additional information".
3. If a project does not meet the required regulations it will be denied unless the applicant requests a continuance date to address redesign issues.
4. Any design submitted must provide documentation supporting compliance with the latest revision of the MassDEP Stormwater Policy Guidelines.
