

# Planet Palooza Talk & Tour

All ages  
welcome!

Outside,  
Library Lawn

**Saturday, April 30th  
2:00 PM to 3:00 PM**

The Open Space Preservation Commission will showcase the Native Plant Garden planted last year at the library. We will describe the plants chosen for both ecological benefit and beauty and go over next steps for the gardens as well as citizen science and volunteer opportunities. Attendees can pick out free seeds allowing you to grow these flowers at home.

*This partnership supports a 2-Week  
Celebration of the 52nd anniversary of Earth  
Day dedicated to the memory of  
Southborough naturalist Linda Hubley.*
