

Backyard Bird Bingo

Welcome forest tourists and nature sightseers!

Here's a fun challenge to begin your backwoods boon. Discover how much biodiversity and backyard birds you can find. From the bold-beaked to the beige; the bicolored, billowy-feathered, or bibbed - birds exhibit an extravaganza of the bounty of blooming forests.

For every bird you see, blot a spot on your card. Continue to peck at this deck until you cover all pictures in a row, vertically, or diagonally across. The first one to cover a line gets BINGO!
