DEVELOPMENTS SHAPING OUR TOWN

New Police Satellite Office

The SPD and Superintendent of Schools have collaborated to create a satellite office for the Southborough Police Department at Mary E. Finn School. The office inside Finn School will provide a regular Police presence in Finn School, which is (geographically) the furthest school from the Police Department. Officers assigned to patrol the south side of town will now have an office area where they can stop in and complete administrative work (report writing) without having to return to the police station on the other side of town. This satellite office will be for report writing only; no evidence, suspects, weapons, etc. will be brought in or out of the school. After meeting with the School Committee, the Police Dept were given the approval to move forward working with Superintendent Martineau, Finn Principal Ryan and IT Director Jason Montijo. We are happy to strengthen this partnership to better the community and schools!
