

SUBSURFACE SEWAGE DISPOSAL

NEW CONSTRUCTION

OFFICIAL STREET NUMBER VERIFICATION

The Board of Health is finding that street numbers are often changed after the Board of Health issues a subsurface sewage disposal system construction permit; whether this is done for legitimate reasons or not, it is causing problems during inspections and creating unnecessary extra administrative work. Therefore, the Board is requiring that before an application is accepted, the information requested below **must be verified and signed off** by each department listed.

Official Street Address/Number _____

Assessors _____ Date: _____

Fire Department _____ Date: _____

Map and Parcel Number (after subdivision) _____ / _____
Map _____ Parcel _____

Assessors _____ Date: _____

NO PLAN WILL BE PROCESSED
UNTIL ADDRESS AND MAP / PARCEL ARE VERIFIED
