

## SOUTHBOROUGH PUBLIC SAFETY COMPLEX FEASIBILITY STUDY

26 October 2015

### AGENDA

1. Review of Space Needs Draft
2. Review of Project Study Concepts- Main Street
  - a. Keep both existing buildings, light Reno to fire plus addition for police dept. Existing police station is repurposed for non public safety. No property expansion.
  - b. Keep both existing buildings. Gut Reno fire station plus major expansion/addition for police and fire (adds one bay of apparatus). None of Minimal property expansion.
  - c. Same as #B but expand property further for better layout
  - d. Keep police station only. Demo fire station and construct new public safety building. No property expansion.
  - e. Same as #D but expand property.
  - f. Same as #D but locate station on current septic field close to street with room for 50' apparatus aprons free sidewalk. Swap rear part of property with st marks for more land along Main Street.
  - g. Same as #F but demo both existing buildings.
  - h. Same as #F but repurpose police station as emergency management facility (mostly storage). Make a smaller public safety building.
3. Review preliminary Project Schedule
